

Dear Parents,

Greetings from Hillside...!

Assessments play an important role to evaluate, document the academic readiness and learning progress of the learners. During this pandemic situation, assessing the learners is a challenging task. But to ensure that the learners are benefitted with the online lessons, we at Hillside have taken the decision to conduct online tests to know how well the learners have adapted to these new teaching techniques. The Assessments would begin from 04<sup>th</sup> August, 2020.

The following is the pattern that would be followed for assessments:

- **Grades II – V** would have an all objective assessment of 10 Marks during the class hours for all subjects.
- These Assessments are not mandatory and are only a part of the Continuous Comprehensive Evaluation to assess the learning that has happened till now.
- Do not worry about syllabus, marks or grades as this will be just done for recapitulation, engage the children and for reiteration of the concepts.
